Company's CSR Initiatives

APPROACH:

Corporate Social Responsibility is basically a company's sense of responsibility towards the society and the environment in which it operates. It is commitment of a business entity to strengthen the society and contribute towards its development, improvement and upliftment.

The company has imbibed this philosophy in its governance and has been pursuing CSR activities on regular basis. The objective of the policy is to strive to create and/or encourage, directly or indirectly, positive impact on the society at large through the CSR activities or projects undertaken by the company. Currently, the company plans to focus on the following activities/projects:

- (i) Promotion of Education;
- (ii) Promoting health care including preventive health care;
- (iii) Eradication of hunger, poverty and malnutrition; and
- (iv) Empowering women and children.

Among the other specific activities/projects that the company may undertake, the company has decided to support (1) setting up of full fledged cancer detection/treatment cell in Smt. Jayaben Mody Hospital at Ankleshwar. The company proposes to achieve this in the next four years in a phased manner, and (2) mid-day meal programme of the Government of India/Government of Maharashtra with aim to feed about 50,000 school children a year.
